

# Permanently delete or restore deleted models

Models that are marked as deleted are put in the deleted tab and remain there until:

1. they are permanently deleted by pressing the Delete option
2. they are restored by pressing the Restore (undelete) option
3. or, until some period of time has elapsed and the models are permanently deleted.

The (permanently) delete and restore options can be done in either way:

1. by selecting the model(s) and pressing the Delete or Restore (undelete) button at the top

The screenshot shows the 'Deleted' tab in a software interface. At the top, there are navigation tabs: 'Models', 'Archives', 'Templates', and 'Deleted' (which is active). To the right of these tabs are buttons for 'Download', 'Delete', and 'Restore (undelete)'. The 'Delete' and 'Restore (undelete)' buttons are highlighted with a red box. Below the tabs, there is a text prompt: 'Drag a column header here to group by that column'. The main area contains a table with two columns: 'Model name' and 'Deleted at'. The first row of the table is selected, and its 'Model name' checkbox is checked. The table contains two rows of data:

<input type="checkbox"/>	Model name	Deleted at
<input checked="" type="checkbox"/>	DHS Border Security example with controls (2021-02-03 12:56:01)	2/3/2021, 3:28:08 AM
<input checked="" type="checkbox"/>	DHS Border Security example with controls (2021-02-03 12:54:35)	2/2/2021, 11:55:28 PM

2. by clicking the  button to the right of the model and select Delete or Restore (undelete)

The screenshot shows the 'Deleted' tab interface with a context menu open over a model. The table has two columns: 'Model name' and 'Deleted at'. The first row of the table is selected, and its 'Model name' checkbox is checked. The context menu shows two options: 'Restore (undelete)' and 'Delete'.

<input type="checkbox"/>	Model name	Deleted at
<input checked="" type="checkbox"/>	DHS Border Security example with controls (2021-02-03 12:56:01)	2/3/2021, 3:28:08 AM

**Warning:** Make sure that you really intend to permanently delete your model(s) as this action can't be reverted.
