## Expand, Collapse and Auto-Redraw the Objecrives Hierarchy

Expand All will expand all branches of the hierarchy.

Collapse All will collapse the hierarchy and show only the goal and the first level of elements (objectives).

You can also expand/collapse sections of the hierarchy by clicking the same icons at the left of the objective node.

When the **Auto-Redraw** box is checked, clicking on the *name* of any element will not only expand the branches below that element but will automatically contract the branches in other parts of the hierarchy. This is useful to be able to focus on a part of the hierarchy, see all of its ancestries, but not be distracted from details in other parts of the hierarchy.

Tree View		Expand All	Collapse All	Auto-Redraw	🕂 Add
Objective	5				
🖻 🔄 🕕 Financial					
Loss of Customers					
🔤 🕕 🗊 Financial Loss					
🔤 🕕 🗊 Financial Liability Due to Accident					
🖻 🔲 🕕 Reliability, Availability, Maintainability
