

# Impact: Mixed

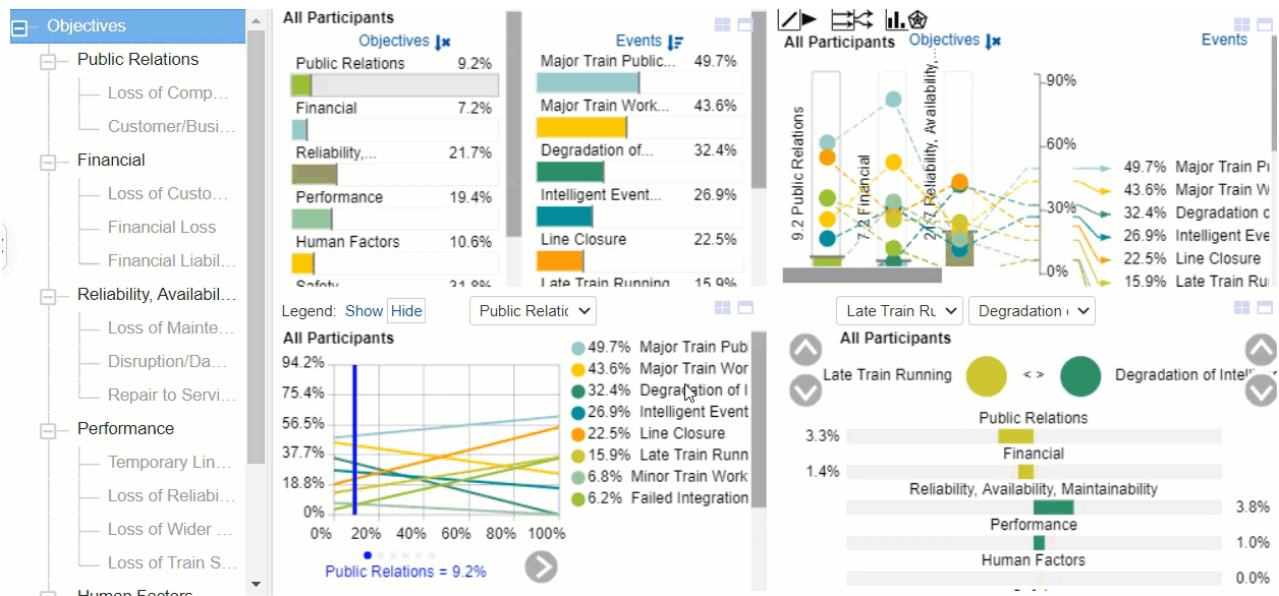

The Mixed screen for Impact displays the sensitivities and grids into one view:

- Dynamic Analysis
- Performance Analysis
- Gradient
- 2D plot
- Head to Head
- Events Grid
- Objectives Grid

By default, four sensitivities are displayed as shown below:

You can temporarily alter the relationship between the events and their objectives by dragging the bars/line (if applicable) on one sensitivity and it will be reflected on other sensitivities.

After temporarily changing the impacts of one or more of the objectives, you can press the  reset icon.

You can show the local and global objective's impacts on the Objectives Hierarchy at the right using the Local-Global buttons:

| Objectives                  | All Participants |        |
|-----------------------------|------------------|--------|
|                             | Local            | Global |
| Objectives                  |                  |        |
| Public Relations            | 9.21%            | 9.21%  |
| Loss of Compan...           | 46.46%           | 4.28%  |
| Customer/Busin...           | 53.54%           | 4.93%  |
| Financial                   | 7.22%            | 7.22%  |
| Loss of Customers           | 22.71%           | 1.64%  |
| Financial Loss              | 21.79%           | 1.57%  |
| Financial Liabilit...       | 55.5%            | 4.01%  |
| Reliability, Availabilit... | 21.7%            | 21.7%  |
| Loss of Mainten...          | 28.23%           | 6.13%  |
| Disruption/Dam...           | 36.65%           | 7.96%  |
| Repair to Servic...         | 35.12%           | 7.62%  |
| Performance                 | 19.41%           | 19.41% |
| Temporary Line ...          | 24.91%           | 4.83%  |
| Loss of Reliabilit...       | 32%              | 6.21%  |
| Loss of Wider M...          | 23.86%           | 4.63%  |

You can hide the Objectives Hierarchy at the left using

Click

to show/hide the toolbar options:

|   |   |  |                                  |   |   |  |
|---|---|--|----------------------------------|---|---|--|
|  |  | Filter events:<br>Show all events <input type="text"/> | Decimals: 1 <input type="text"/> | Sort Objectives by: None <input type="text"/> | Sort Events by: <input checked="" type="checkbox"/> Active <input type="checkbox"/> Sorting | Events parameter: <input type="checkbox"/> Show Components |
|   |   |  |                                  | Priority <input type="text"/>                 | Impact <input type="text"/>   |  |

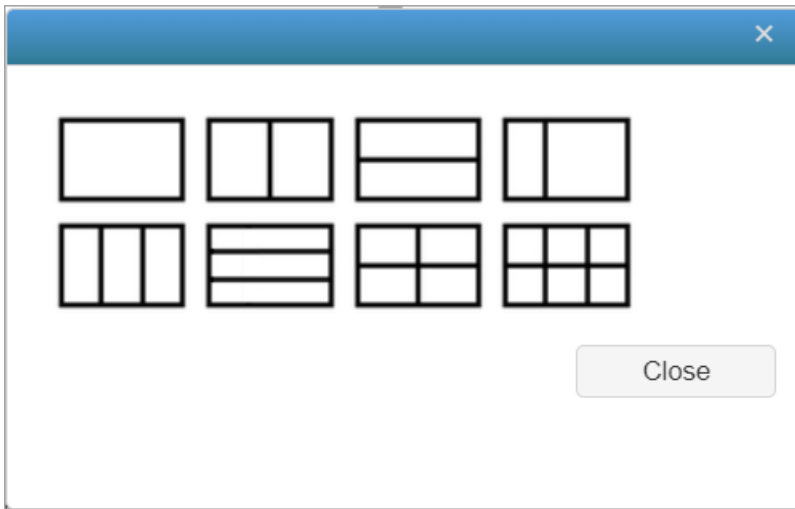

**DIDN'T SEE WHAT YOU ARE LOOKING FOR?** Try enabling the **Advanced Mode** switch at the bottom of the page, this will show the advanced options on this page.

The options available can be specific to a sensitivity.

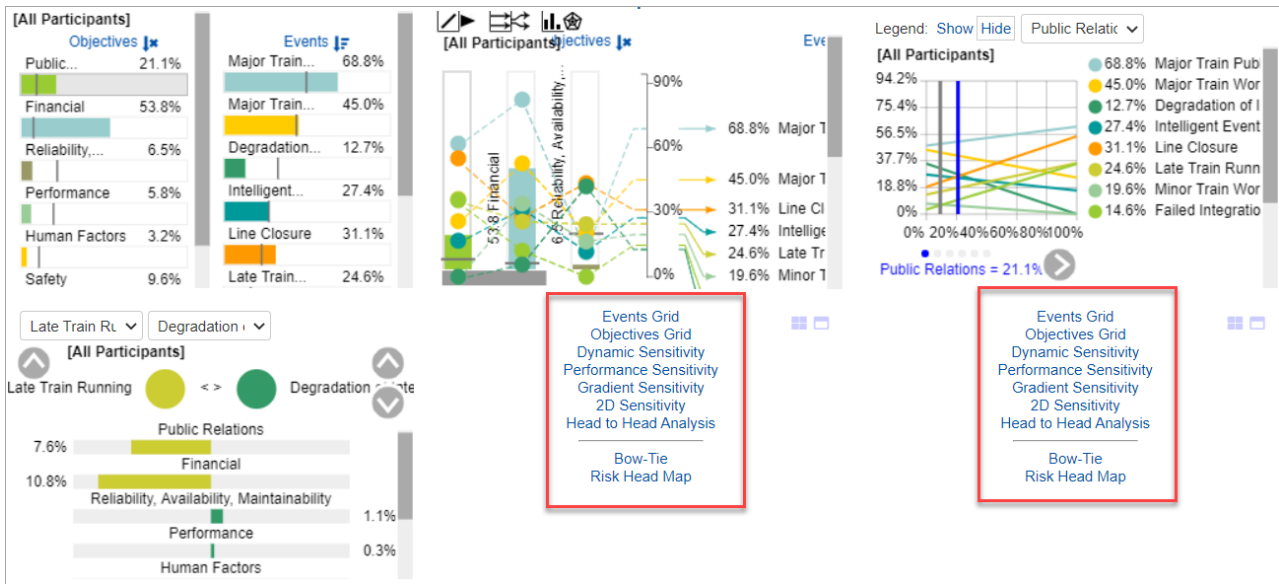

Click

to select the layout how the sensitivities and/or grid will be displayed:

If you select the 6-widget layout, you will be able to select additional results widget:

## Select Participants and Groups

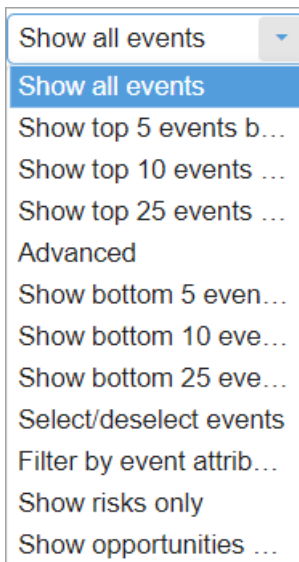

You can select to display results for **one** participant or group using 

Clicking the  button will open a window where you can select a participant or a group.

You can use the prev  and the next  buttons to cycle through each participant or group.

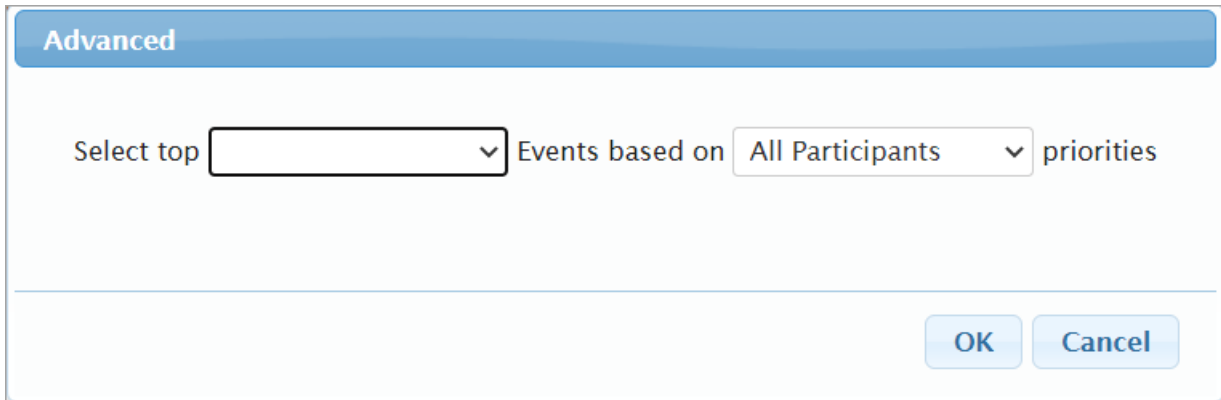

## Filter Events

By default, all events are displayed.

You can select to display the top or bottom 5, 10, or 25 events based on the "All Participants" group impacts.

The Advanced filter, allows you to select a specific number for the top N, and base it on another group or participant.

The select /deselection option, allows you to check/uncheck the events.

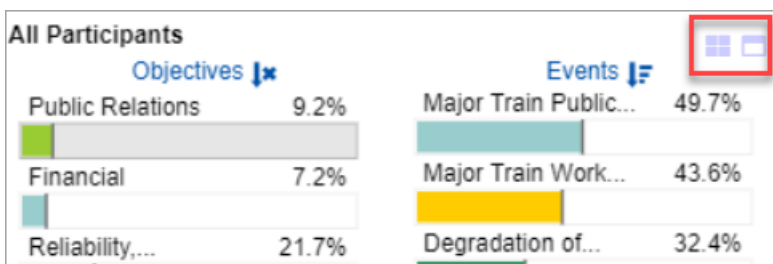

The filter by events attributes, filter the events base on the attributes specified on the Events page.

The show risks only / Show opportunities only are applicable for the Mixed model where events can be Risk or Opportunity.

## Advanced Mode Options
