

Risk Δ (delta) Objectives

Overview

The **Risk Δ (delta) Objectives** is a Dynamic Sensitivity analysis used to dynamically change the impact of the objectives to determine how these changes affect the **risks of the events**.

This page works similarly as with **Impact's Dynamic Sensitivity**, where you can also dynamically change the impact of the objectives, except that it is to determine its effect on the impacts of events, instead of on the risks of events.

The bars at the left represent the impact of the objectives, while the bars at the right are the risks of the events.

By dragging the objective's impacts back and forth in the left column, the risks of the events will change in the right column.

The black | markers on the objective and event bars indicate the original objective and event impacts.

After temporarily changing the impacts of one or more of the objectives, you can press the reset icon.

By selecting an element in the hierarchy other than the top node, you can see the results due to this element rather than the overall results due to the "Objectives" node.

You can show the local and global objectives impacts on the Objectives Hierarchy at the right using the Local-Global buttons:

Objectives	All Participants	
	Local	Global
Objectives		
Public Relations	9.21%	9.21%
Loss of Compan...	46.46%	4.28%
Customer/Busin...	53.54%	4.93%
Financial	7.22%	7.22%
Loss of Customers	22.71%	1.64%
Financial Loss	21.79%	1.57%
Financial Liabilit...	55.5%	4.01%
Reliability, Availabilit...	21.7%	21.7%
Loss of Mainten...	28.23%	6.13%
Disruption/Dam...	36.65%	7.96%
Repair to Servic...	35.12%	7.62%
Performance	19.41%	19.41%
Temporary Line ...	24.91%	4.83%
Loss of Reliabilit...	32%	6.21%
Loss of Wider M...	23.86%	4.63%

You can hide the Objectives Hierarchy at the left using 

Click  to show/hide the toolbar options:

			Filter events: Show all events	Decimals: 2	Sort Objectives by: None	Sort Events by: Risk	<input type="checkbox"/> Active	<input type="checkbox"/> Show Components
---	---	---	-----------------------------------	-------------	--------------------------	----------------------	---------------------------------	--

Select Participants and Groups

You can select to display results for **one** participant or group using 

Clicking the  button will open a window where you can select a participant or a group.

You can use the prev  and the next  buttons to cycle through each participant or group.

Filter Events

By default, all events are displayed.

Filter events: Show all events ▾ Decimals: 2 ▾ So N

- Show all events
- Show top 5 events based on All Participants risks
- Show top 10 events based on All Participants risks
- Show top 25 events based on All Participants risks
- Show bottom 5 events based on All Participants risks
- Show bottom 10 events based on All Participants risks
- Show bottom 25 events based on All Participants risks
- Advanced: show top X events
- Show funded events - Default Scenario
- Select/deselect events
- Filter by event attributes

You can select to display the top or bottom 5, 10, or 25 events based on the "All Participants" group risks.

The Advanced filter, allows you to select a specific number for the top N, and base it on another group or participant.

Advanced

Select top Events based on priorities

OK Cancel

The select /deselection option, allows you to check/uncheck the events.

The filter by events attributes, filter the events base on the attributes specified on the Events page.

Events Components

Checking the Show Components displays the breakdown of each of the objectives' contributions or share to the

risks of each of the events.

The breakdown colors of the event bars at the right corresponds to each of the objectives at the left.

Active Sorting (Keep Sorting)

Active Sorting is only enabled when Events are Sorted by Risks.

Checking the Active Sorting checkbox actively re-sorts the events as the objective impacts are being adjusted.

When the Active Sorting is OFF, the initial sorting of the events will be remembered.

Change Events Color

Clicking on the event bar will open a color picker where you can select and change the color assignment.
