Edit Evaluation Question

The Project Manager can edit the evaluation phrase to make it more suitable to the model or clearer to the evaluators.
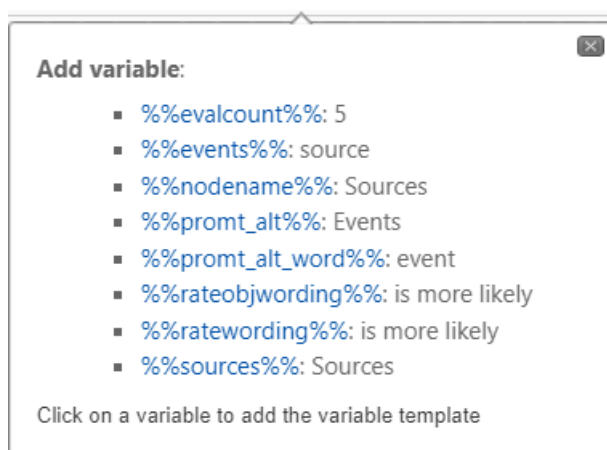

Estimate the likelihood of each of the following Sources ▶ ◀×   Edit

This is done by clicking the **Edit** button.

The wording phrase will be in edit mode as shown below:

B *I* U | 🌐 A̲ A̲ | ✂ 🗐 📋 🧹 | ≡ ≡ ≡ ≡ ≡ | 🔗 🔗 ↵   Variables...   Reset to default   Apply changes   Apply to...   Cancel

%%Estobjwording%% of each of the following %%Sources%%

Click **Variables...** to view the available templates that can be inserted:

Add variable:
- **%%evalcount%%**: 5
- **%%events%%**: source
- **%%nodename%%**: Sources
- **%%promt_alt%%**: Events
- **%%promt_alt_word%%**: event
- **%%rateobjwording%%**: is more likely
- **%%ratewording%%**: is more likely
- **%%sources%%**: Sources

Click on a variable to add the variable template

Click **Reset to default** to reset the wording.

The customized wording will be applied to the cluster where the element/s being evaluated belongs.

Click **Apply changes** to save your changes for the specific step.

Click the **Apply to...** button if you want to list other clusters with similar measurement method where you can select to apply the wording:

You can choose item(s), where this custom text will be applied as well:
- ☑ Sources
- ☐ Human Factor
- ☐ Environmental
- ☐ Infrastructure
- ☐ Terrorism
- ☐ Technology
