

Overall Results

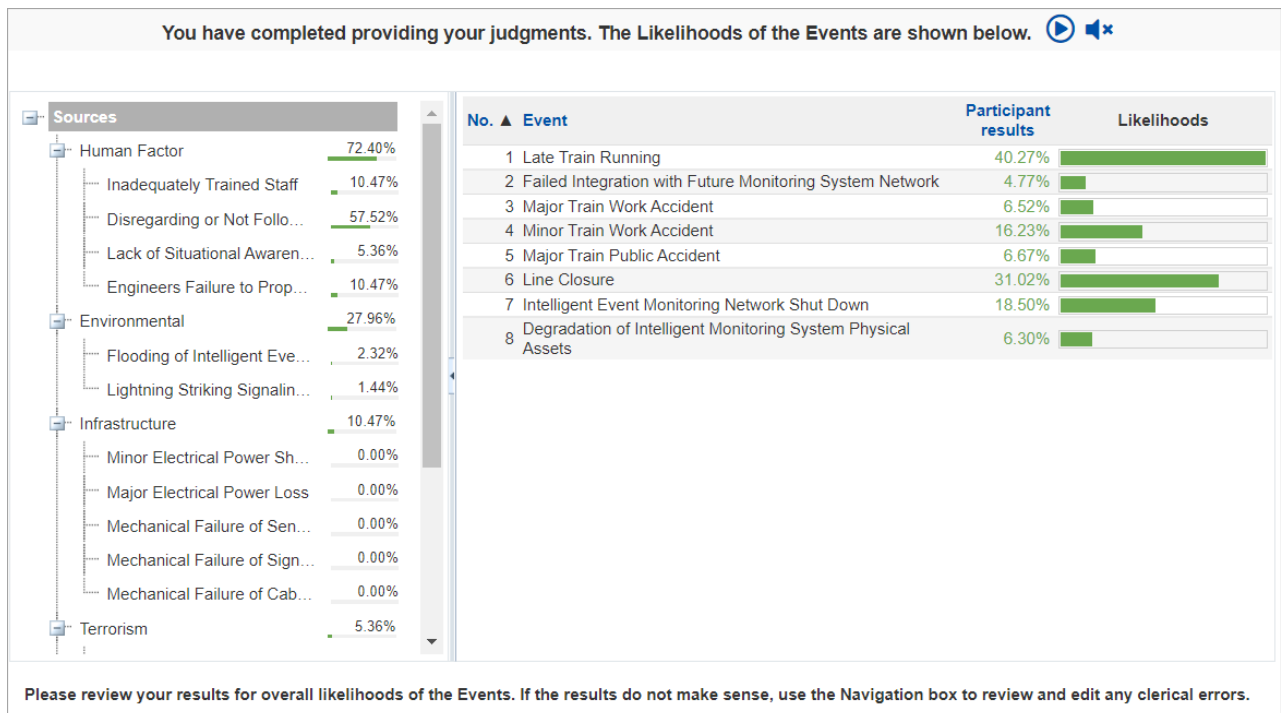

Depending on the Project Manager, the overall results page for a participant and/or combined can be displayed.

The likelihoods/impacts of the events with respect to the overall Source/Objective are shown on this screen:

Likelihood

Impact

Clicking on a lower level node in the sources/objectives hierarchy will display the events' likelihoods/impacts with respect to that node.

You can view the information document by clicking on the  icon. The blue information document icon means that it has content, otherwise, the icon is hidden for the evaluators. For the Project Manager, a gray information document icon is displayed for empty information document which is clickable for editing.
